**Independent auditor's report on financial statements
of LIMITED LIABILITY COMPANY “GOFINGO”
as of (for) December 31, 2019 (2019)**

Attn: management of Limited Liability
Company “GOFINGO”

National Commission for State Regulation
of Financial Services Markets

Financial Statements Audit Report

Opinion

We conducted an audit of the financial statements of Limited Liability Company "GOFINGO", USREOU code 42059219, registered address - 04071, Kyiv, Khoryva Street, building 1A (hereinafter - the Company), which consists of the Balance Sheet (Statement of financial position) as of December 31, 2019, Profit and Loss Account (Statement of Comprehensive Income) for 2019, Statement of Cash Flows (by direct method) for 2019, Statement of Equity for 2019, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the attached financial statements accurately reflect, in all material respects, the financial position of the Company as of December 31, 2019, and its financial results and cash flows for the year then ended, in accordance with International Financial Reporting Standards (hereinafter - IFRS), and meets the requirements of the Law of Ukraine "On Accounting and Financial Reporting in Ukraine" of 16.07.1999 No.6996-XIV on the preparation of financial statements.

Basis for opinion

We conducted our audit in accordance with International Auditing Standards (2016-2017 version) (hereinafter - the ISA). Our responsibility under these standards is set out in the section “Auditor's Responsibility for the Financial Statements Audit” of our report.

We are independent of the Company in accordance with the Code of Ethics for Professional Accountants of the International Ethics Standards Board for Accountants (hereinafter - IESBA Code) and the ethical requirements applicable in Ukraine to our audit of financial statements, as well as other ethical obligations in accordance with these requirements

and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to serve a basis for our opinion.

Significant uncertainty regarding going concern

We draw attention to the situation regarding the future uncertainty related to the introduction by the Government of Ukraine of the restrictions established during the quarantine in connection with the outbreak of coronavirus COVID-19 in the world. As a result, there is significant uncertainty that may cast doubt on the Company's ability to continue as a going concern and that may affect future operations and the ability to maintain the value of its assets. The impact of such future uncertainty cannot be estimated at this time. These financial statements do not include any adjustments that may arise as a result of such uncertainty. Such adjustments will be notified if they become known and can be measured. Our opinion on this issue has not been modified.

Key audit issues

The key audit issues are the issues that, in our professional judgment, were the most significant during our audit of the financial statements for the current period. These issues were considered in the context of our audit of the financial statements as a whole and were taken into account in forming the opinion thereon, and we do not express a separate opinion on these issues.

We have identified the following issues as key audit issues that should be reflected in our report.

Recognition of expected credit losses

In compliance with IFRS 9 “Financial instruments”, the Company recognizes provisions for impairment losses on expected credit losses on financial assets that are measured at amortized cost and fair value through other comprehensive income. The Company discloses this information in Note 4.

Determining a significant increase in credit risk since initial recognition requires multifactorial and comprehensive analysis, appropriate consideration of a particular factor and analysis of its weight compared to other factors that depend on the type of product, the characteristics of financial instruments and the borrower.

Among other things, our procedures included the following:

- We analyzed a list of information that may be relevant for assessing changes in credit risk;
- We examined the process and methodology of the Company's use of credit ratings of rating agencies;
- We assessed the completeness of the disclosure, including quantitative and qualitative indicators related to the formation of provisions for losses according to our understanding of the business.

Other information – audit for previous period

The audit of the company's financial statements for the year ended December 31, 2018 was conducted by another auditor, who on March 22, 2019 expressed an unmodified opinion on these financial statements.

Other information

The Company's management is responsible for other information.

Other information obtained at the date of this auditor's report is a part of the annual reporting data formed by the Company in accordance with the “Procedure for reporting by financial companies, financial institutions - legal entities under public law, trust companies, as well as legal entities - business entities, which by their legal status are not financial institutions,

but have the opportunity provided by laws and regulations of State Financial Services Commission or National Financial Services Commission to provide financial leasing services", approved by the order of the National Commission for State Regulation of Financial Services Markets No.3840 of September 26, 2017, consisting of

- ✓ title page (Appendix 6);
- ✓ information on the scope and number of financial services agreements concluded and executed (Appendix 7);
- ✓ certificates on loan agreements concluded and executed, including on the terms of a financial loan (Appendix 12);
- ✓ information on the fixed capital structure of the financial institution (Appendix 14);
- ✓ information on the assets of the financial institution (Appendix 15);
- ✓ information on the high risks of the financial institution (Appendix 16).

Our opinion on the annual reporting data is contained in the independent report on providing assurance on the annual reporting data of the financial company Limited Liability Company "GOFINGO" for 2019.

Our opinion on the financial statements does not extend to other information and we do not draw conclusions with any level of certainty about this other information.

In connection with the audit of financial statements, it is our responsibility to review other information and to consider whether there is a material inconsistency between other information and the financial statements or our knowledge received during the audit, or whether this other information appears to contain material misstatement.

If, on the basis of our work on other information obtained before the date of the auditor's report, we conclude that there is a material misstatement of that other information, we are required to report that fact.

We did not find any material misstatement of other information that should have been included in the report.

Responsibility of management and senior executives for financial statements

Management is responsible for the preparation and fair presentation of financial statements in accordance with IFRS and for such internal control system that management deems necessary to ensure that the financial statements are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, where applicable, going concern issues and using going concern assumptions as a basis for accounting, unless management either plans to liquidate or dissolve the Company, or has no other real alternative to this.

The senior executives are responsible for overseeing the Company's financial reporting process.

Auditor's responsibility for the audit of financial statements

Our objectives are to obtain reasonable assurance that the financial statements as a whole are free from material misstatement due to fraud or error, and to issue an auditor's report that contains our opinion. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs will always reveal a material misstatement, if any. Misstatements may be the result of fraud or error; they are considered material if, individually or in combination, they are reasonably expected to influence the economic decisions of users made on the basis of these financial statements.

When performing an audit in accordance with ISA requirements, we use professional judgment and professional skepticism throughout the audit. In addition, we:

- identify and assess the risks of material misstatement of the financial statements as a result of fraud or error, develop and perform audit procedures in response to those risks, and obtain audit evidence that is sufficient and reasonable to use them as a basis for our opinion. The

risk of not detecting material misstatement due to fraud is higher than for misstatement due to error, as fraud may include conspiracy, forgery, willful misconduct, misstatement, or neglect of internal control measures;

- gain an understanding of internal control measures related to the audit to develop audit procedures that would be appropriate to the circumstances, rather than to express an opinion on the efficiency of the internal control system;

- evaluate the acceptability of the applied accounting policies and the validity of the accounting estimates and relevant disclosures made by management;

- conclude on the acceptability of management's use of the going concern assumption as a basis for accounting and, based on the audit evidence obtained, conclude whether there is significant uncertainty about events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that there is such significant uncertainty, we should draw attention in our auditor's report to the relevant disclosures in the financial statements or, if such disclosures are inappropriate, modify our opinion. Our conclusions are based on audit evidence obtained before the date of our auditor's report. However, future events or conditions may cause the Company to cease operations as a going concern;

- evaluate the overall presentation, structure and content of the financial statements, including disclosures, and whether the financial statements show the underlying transactions and events, so as to achieve a reliable presentation.

We provide the senior executives, along with other matters, with information about the planned scope and timing of the audit and significant audit results, including any material deficiencies in the internal control measures identified by us in the course of the audit.

We also acknowledge to the senior executives that we have complied with the relevant ethical requirements for independence, and inform them of any relationship and other matters that could reasonably be considered to affect our independence and, where applicable, on appropriate precautions.

Report on the requirements of other laws and regulations

This section of the report was prepared in order to disclose additional information on the Company's compliance with the provisions of laws and regulations in accordance with the Order of the National Commission for State Regulation of Financial Services Markets No.362 of 25.02.2020.

Formation (alteration) of the authorized (equity/stacked) capital of the Company

The authorized capital of the Company is paid exclusively in cash and placed on the bank accounts of commercial banks, which are legal entities under the laws of Ukraine.

The amount of the authorized capital of the Company reflected in the financial statements corresponds to the data of the Company's Charter.

Criteria and standards for capital adequacy and solvency, liquidity, profitability, asset quality and risk of operations

During 2019, the Company submitted reports to the National Commission for State Regulation of Financial Services Markets in accordance with Order No.3840 of 26.09.2017. During this period, equity requirements (no less than UAH 5 mln.) were met.

Indicators of the financial position of the Company shown in the table

No. of item	Indicators	As of 31.12.18	As of 31.12.19	Standard value
1. Liquidity analysis of the Company				
1.1. Total (coverage ratio)				
	F.1 line 1195	1,055	1,077	>1

K 1.1. = ----- F.1 line 1695			
1.2. Quick liquidity ratio			
F.1 line 1195-(line 1100-1110) K 1.2. = ----- F.1 line 1695	1,055	1,077	>0,5
1.3. Absolute liquidity			
F.1 line 1160+1165 K 1.3. = ----- F.1 line 1695	0,001	0,069	>0
1.4 Net working capital			
K 1.4 = F.1(line 1195 - line 1695)	2 949	4 4685	>0
2. Indicators of the financial position of the Company			
2.1 Solvency ratio			
F.1 line 1495 K 2.1. = ----- F.1 line 1900	2 949	4 4685	>0
2.2 Ratio of own working capital			
F.1(line 1195 – line 1695) K 2.2. = ----- F.1 line 1695	2 949	4 4685	>0

Based on the values of the ratios calculated above, it is possible to characterize the overall financial position of the Company as of 31.12.2019 as satisfactory.

Formation, accounting, sufficiency and adequacy of formed reserves in accordance with the legislation

The formation, accounting, adequacy and adequacy of formed reserves are determined by the Company's accounting policy and IAS 32 "Financial Instruments: Presentations", IAS 9 "Financial Instruments", IFRS 7 "Financial Instruments: Disclosures").

The issue of accounting estimates in determining the amount of provisions (provisions for impairment of receivables) (provision for possible credit losses) and the use of management estimates and assumptions that affect the amount of assets reflected in the reporting is carried out on the basis of the Order on accounting policy.

In preparing the financial statements in accordance with IFRS, the Company adhered to the basic principles of financial reporting: the method of accrual, continuity, clarity, relevance, reliability, comparability, verifiability, which were disclosed and justified in the Notes to the financial statements for the reporting period.

Management uses estimates and assumptions that affect the presentation of amounts of assets and liabilities and the disclosure of potential assets and liabilities at the balance sheet date. Accounts receivable are current. The formation of provisions for receivables was not carried out.

Investment portfolio structure

As of 31.12.2019, the Company has no (current and long-term) financial investments.

The presence of a ban on attracting financial assets from individuals with an obligation to return them later

During 2019, the Company did not raise financial assets from individuals with the obligation to return them later. The Company complies with the requirements prohibiting the attraction of financial assets from individuals with the obligation to return them, set out in paragraph 38 of the License Conditions No. 913, namely: Economic activities of financial services provision in terms of attracting financial assets from individuals with an obligation regarding their subsequent return can be carried out by credit unions only after obtaining the

appropriate license. Other financial institutions are prohibited from attracting financial assets from individuals with an obligation to return them later.

Admissibility of combining individual business transactions for which the entity has received a license

Company adheres to the restrictions on combining the types of economic activities established by paragraph 37 of the License Conditions No. 913.

In 2019 the Company operates on the basis of Licenses for conducting business activities for the provision of financial services (except for professional activities in the securities market), namely:

- provision of credits, including on the terms of a financial loan (Order of the National Financial Services Commission No. 1124 of July 3, 2018).

Provision of financial services on the basis of an agreement in accordance with the law and internal rules for the provision of financial services by an economic entity

The Company provided financial services on the basis of an agreement that meets the requirements the requirements of Article 6 of the Law of Ukraine "On Financial Services and State Regulation of Financial Services Markets", Articles 11 and 18 of the Law of Ukraine "On Consumer Protection", sections II, III of the Law on "Consumer Lending", sections II, III of the Law on "Electronic Commerce" and taking into account the provisions of the internal rules for the provision of financial services.

Placing information on own website (webpage) and its updating

The Company, in accordance with the Law of Ukraine "On Access to Public Information", provided access to information on its activities. Also Company posted the information specified in Articles 12 and 12¹ of the Law of Ukraine "On Financial Services and State Regulation of Financial Services Markets" on its website (<https://gofingo.com.ua>) and ensured its updating.

Decision making in case of conflict of interest

In the event of a conflict of interest, the Company complied with the requirements of Article 10 "Decision-making in case of conflict of interest" of the Law of Ukraine "On Financial Services and State Regulation of Financial Services Markets".

Correspondence of premises in which service of clients (consumers) is carried out, their accessibility for persons with disabilities and other low-mobility groups of the population

The company provides service to the clients in the premises at Kyiv, Khoryva str., building 1A, which meets the requirements of DBN B.2.2-17:2006 "Buildings and structures. Accessibility of buildings and structures for low mobility groups" which was document supported by the conclusion of ENGINEERING AND DESIGN BUREAU "PANORAMA" LLC (USREOU code 42031078), expert Posternak Mykhailo Mykolaiovych, certificate series AE No. 000590.

Entry of information by an economic entity about all its separate subdivisions into the Unified State Register of Legal Entities, Individual Entrepreneurs and Public Organizations and into the State Register of Financial Institutions in accordance with the requirements established by law

For the moment, the Company has no separate divisions, information on which must be entered into the Unified State Register of Legal Entities, Individual Entrepreneurs and Public Organizations and into the State Register of Financial Institutions.

Internal control and internal audit

Conducting internal audit in the company is regulated by the Regulations "On the Internal Audit Service" and "On the Internal Audit System", which was approved by the Resolution of the sole member of GOFINGO LLC No. 21/09/18 of 21.09.2018. The Company also has an existing risk management system, which is aimed at ensuring the effectiveness of activities, organization and coordination of actions aimed at ensuring the safety of assets, verifying the reliability of accounting information, improving the efficiency of accounting operations.

Accounting and registration system (software and special technical equipment), which provide for the accounting of transactions for the provision of financial services to consumers and reporting to National Financial Services Commission

The Company has hardware, which enables to keep records and registration of financial services transactions and compliance with the requirements for submission to the National Financial Services Commission of the information established by law, and means of communication (telephone, Internet, e-mail).

Cash transactions

Company did not conduct cash transactions in 2019.

Storage of documents and the availability of the required security equipment

The company provided storage of documents and has the required security measures in place (including safes for storing documents, security alarms and/or appropriate security).

Procedure for formation of the authorized capital

As of 31.12.2019, the Company's authorized capital in accordance with the financial statements and the Company's Charter is UAH 5,200,000. (five million two hundred thousand 00 kopecks).

The formation of the authorized capital of the Company was carried out in compliance with the requirements of the Law of Ukraine "On Business Associations". The authorized capital of the Company as of December 31, 2019 is formed in full and paid exclusively in cash within the time limits established by law and complies with the Charter.

The authorized capital was paid by the founder GO FINANCIAL TECHNOLOGIES CJSC (address: VILNIUS CITY MUNICIPALITY, TERRITORY OF VILNIUS CITY MUNICIPALITY, LITHUANIA, identification code 302628341) solely in cash as follows:

Date of payment order	Number of payment order	Bank	Amount, UAH
04.05.2018	132624	ALFA-BANK JSC	3 000 000,00
17.01.2019	J0117B9Z3W	CB PRIVATBANK JSC	1 754 438,57
22.01.2019	J0122BLMFX	CB PRIVATBANK JSC	445 561,43

Total	x	x	5 200 000,00
-------	---	---	--------------

The members did not use promissory notes, funds received on credit, loan and pledge, budget funds and intangible assets to create the registered authorized capital.

As of December 31, 2019, there is no unpaid or withdrawn capital. The formation of the authorized capital was carried out in accordance with the requirements of the current legislation of Ukraine.

Sources of origin of equity components

As of 31.12.2019, the composition of the Company's equity is presented as follows:

- registered (share) capital: UAH 5,200 thou. - the amount of the registered authorized (share) capital;
- additional capital: UAH 170 thou. - cash contributions of the member without changing the amount of authorized capital;
- retained earnings: UAH 2,581 thousand. – balance of the retained earnings of the current and previous years.

Methods of measuring the fair value of assets

The Company applies valuation techniques that are appropriate to the circumstances and for which there is sufficient data to measure fair value, maximizing the use of relevant open input data and minimizing the use of closed input data.

The company uses such valuation methods as:

- a market approach based on the use of price and other relevant information generated by market transactions with identical or comparable (i.e. similar) assets, liabilities or a group of assets and liabilities;
- a cost approach that reflects the amount that would be needed now to replace the asset's operating capacity;
- a revenue approach that converts future amounts (for example, cash flows or income and expenses) into one current (i.e. discounted) amount.

In some cases, the Company uses several valuation techniques to measure fair value.

**LIMITED LIABILITY COMPANY
“GOFINGO”**

**Financial statements in accordance with IFRS
for the year ended December 31, 2019**

1. GENERAL INFORMATION ABOUT THE COMPANY

LIMITED LIABILITY COMPANY "GOFINGO" (hereinafter referred to as the Company) (USREOU code 42059219) was registered on 10.04.2018 and is existing in accordance with the legislation of Ukraine, record number: 1 074 102 0000 074607.

According to the Order No. 876 of 07.06.2018, the National Commission for State Regulation of Financial Services Markets (National Financial Services Commission) registered the Company as a financial institution (certificate No. 1042 series FK).

In accordance with the Law of Ukraine "On licensing of economic activities" and approved by the Resolution of the Cabinet of Ministers of Ukraine dated 07.12.2016 No. 913 "Licensing conditions for conducting business activities for the provision of financial services (except for professional activities in the securities market), by Order No. 1124 dated 03.07.2018 the Company received an indefinite license to conduct business activities for the provision of financial services, namely:

- for lending, including on the terms of a financial loan.

The governing bodies of the Company are the General Meeting of the Company's Members.

The direct management of the Company's activities is carried out by the director - the executive body of the Company.

The control over the financial and economic activity of the Company is carried out by the audit committee of the Company and the internal auditor.

The founder of the Company with a 100% share is a legal entity - a resident of Lithuania: GO FINANCIAL TECHNOLOGIES CJSC (address: VILNIUS CITY MUNICIPALITY, TERRITORY OF VILNIUS CITY MUNICIPALITY, LITHUANIA). In 2019 name MV INVESTMENTS CJSC was changed to GO FINANCIAL TECHNOLOGIES CJSC. Authorized capital as of 31.12.2019 – UAH 5,200,000 (Five million two hundred thousand).

The company has no separate divisions as of 31.12.2019. As of 31.12.2019, the total number of employees was 30 people, the average for 2019 was 20 people.

Registered address of the Company's office: 04071, Kyiv, Khoryva Street, building 1A. Official webpage: <https://gofingo.com.ua>. E-mail address: infogofingo.com.ua.

2. BASIS FOR PREPARATION, APPROVAL AND SUBMISSION OF FINANCIAL STATEMENTS

Management compliance statement

We have prepared the financial statements as of 31 December 2019 and for the 2019 financial year, which present objectively, in all material respects, the financial position of the GOFINGO LLC and results its operations for 2019 financial year in accordance with International Financial Reporting Standards (IFRS).

The Company's management is responsible for ensuring that the Company's financial statements disclose with sufficient accuracy the Company's financial position and ensure that its financial statements comply with IFRS and Ukrainian laws and regulations. The Company's management is also generally responsible for taking all possible measures to ensure the preservation of the Company's assets and to prevent and detect cases of abuse and other violations.

Management believes that in the process of preparation of the financial statements, the appropriate accounting policies have been applied, their application has been consistent and confirmed by reasonable and considered assumptions and calculations. All relevant International Financial Reporting Standards effective as of 01.01.2019 were also complied with. Early application of IFRS was not performed.

Date of approval of financial statements for issue

These annual financial statements were approved for issue by the Director of the Company on February 25, 2020.

Basis for preparation

These financial statements have been prepared in accordance with all the requirements of IFRS, International Accounting Standards (IAS) and Interpretations developed by the International Financial Reporting Interpretations Committee ("IFRIC"), which were officially approved by the Ministry of Finance of Ukraine as of January 1, 2019 and posted on its official website as of the date of preparation of these financial statements.

In preparing the financial statements, the Company used historical (actual) cost to value the assets.

The principal accounting policies applied in the preparation of these financial statements are set out below. These accounting policies have been consistently applied throughout the reporting periods.

Functional currency and presentation currency

The financial statements are presented in Ukrainian hryvnia, which is the Company's functional currency. All financial information presented in Ukrainian hryvnias is rounded to the nearest thousand, unless otherwise indicated.

Assumptions about the Company's operation in the near future

The financial statements have been prepared on the assumption that the Company will continue as a going concern for the foreseeable future, which includes the sale of assets and the settlement of liabilities in the ordinary course of business. In forming such professional judgment, management took into account the financial condition, its existing intentions, possible financial support from the Company's members, planned future profitability and access to financial resources, and analyzed the impact of the current financial and economic situation on the Company's future activities.

It should be noted that as of the reporting date, the Company operates in an unstable political and economic situation, the factors of which are threats to the territorial integrity of the state, ongoing armed aggression, significant reduction and weak recovery of the national economy and public finances, financial market volatility, periodic surges in inflation and devaluation of the national currency. Despite signs of improvement in the Ukrainian economy, stabilization of the banking system and international support for reforms, it must be acknowledged that the financial market remains quite vulnerable, the range of its participants and available tools continues to narrow, and emission and investment activity are not recovering. with the increase in the capital of banks, primarily state-owned and nationalized), the reform of the capital market is quite controversial and has not yet been associated with significant positive results. Stabilization of the economic situation in Ukraine and resumption of capital market development will largely depend on the effectiveness of reforming the financial sector, legal framework, judiciary and other socio-economic factors, which should lead to the implementation of best European practices, compliance with the EU-Ukraine Association, creation of a more attractive investment climate. Due to insufficiently fast pace of reforms, certain uncertainty of their terms and contradictory attitude of society and investment environment to their current consequences, as well as periodic bursts of instability in world financial markets, a reliable assessment of the impact of the current economic situation on the Company's financial condition difficulties. As a result, there is uncertainty that may affect future transactions, the ability to recover the value of the Company's assets and the Company's ability to service and pay its debts as they fall due. These financial statements do not include any adjustments that may occur as a result of such uncertainty. Such adjustments will be notified if they become known and can be assessed.

Application of new standards and interpretations

In preparing its financial statements for the year ended 31 December 2019, the Company has applied all new and revised standards and interpretations that are relevant to its operations and are mandatory for application in the annual reporting as of January 1, 2019. The Company has not applied published standards, interpretations or amendments that have been issued early but have not entered into force. The nature and impact of these changes are discussed below. Although the new standards and amendments were applied for the first time in 2019, they did not have a significant impact on the Company's annual financial statements. The nature and effect of each new standard/amendment are described below:

Standards applied by the Company since 01.01.2019

IFRS 16 “Lease”

IFRS 16 was issued in January 2016 and replaces IAS 17 Lease, IFRIC Interpretation 4 Determination of Lease Signs in an Agreement, SIC Interpretation 15 “Operating leases - incentives” and the Explanation of the SIC 27 “Defining the nature of transactions that have a legal form of lease”. IFRS 16 establishes the principles for recognizing, measuring, presenting and disclosing leases and requires lessees to reflect all leases using a single balance sheet model, similar to the accounting procedures in IAS 17 for financial lease.

The standard provides for two exemptions for lessees: the lease of low-value assets (such as personal computers) and short-term leases (i.e. leases of up to 12 months). At the inception of the lease, the lessee will recognize the lease payment obligation (i.e. the lease obligation) as well as the asset that represents the right to use the underlying asset during the lease period (i.e. the asset in the form of the right of use).

Lessees will be required to recognize interest expense on the lease obligation separately from the depreciation expense of the asset in the form of a right of use.

Lessees should also reevaluate the lease obligation when an event occurs (for example, a change in the lease period, a change in future lease payments as a result of a change in the index, or the rate used to determine such payments). In most cases, the lessee considers the amount of the revaluation of the lease as an adjustment to the asset in the form of a right of use.

The accounting procedure for a lessor in accordance with IFRS 16 is virtually unchanged from the current requirements of IAS 17. The lessors will continue to classify lease using the same classification principles as in IAS 17, highlighting there are two types of lease: operating and financial.

In addition, IFRS 16, effective for annual periods beginning on or after 1 January 2019, requires lessors and lessees to disclose more information than IFRS 17. The Company will apply the exemptions proposed in the standard for lease agreements that expire within 12 months from the date of first application, as well as lease agreements for low-value underlying assets.

IFRIC Interpretation 23 “Uncertainty over Income Tax Calculation Rules”

The Interpretation considers how to account for income taxes when there is an uncertainty in tax interpretations that affects the application of IAS 12. The Interpretation does not apply to taxes or fees that do not fall within the scope of IAS 12, and does not contain special requirements regarding interest and penalties associated with uncertain tax interpretations. In particular, the Interpretation addresses the following issues:

- ▶ whether the organization considers uncertain tax interpretations separately;
- ▶ assumptions that the organization makes regarding the verification of tax interpretations by tax authorities;
- ▶ how the organization determines taxable profit (tax loss), tax base, unused tax losses, unused tax benefits and tax rates;

► how the organization considers changes in facts and circumstances.

The entity shall decide whether to consider each uncertain tax interpretation separately or in conjunction with one or more other uncertain tax interpretations. It is necessary to use an approach that will enable to more accurately predict the uncertainty outcome. The interpretation is effective for annual periods beginning on or after 1 January 2019. The Company applies the Interpretation from the date of its entry into force. As the Company operates in a complex tax environment, the application of the interpretation in the future may affect the financial statements. In addition, the Company may be required to establish procedures and methods for obtaining the information necessary for the timely application of the interpretation. Currently, the Company considers the possibility of such impact to be insignificant.

Amendments to IFRS 9 “Conditions for Early Repayment with Potential Negative Reimbursement”

In accordance with IFRS 9, a debt instrument may be measured at fair value or at fair value through other comprehensive income, provided that the contractual cash flows are “solely payments of principal and interest on outstanding principal” (SPPI test) and the instrument is maintained within an appropriate business model that allows such classification. The amendments to IFRS 9 clarify that a financial asset satisfies the SPPI test regardless of which event or circumstance results in early termination of the contract, as well as regardless of which party pays or receives reasonable compensation for early termination of the contract. These amendments are applied retrospectively and come into force for annual periods beginning on January 1, 2019. These amendments do not affect the Company's financial statements.

Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets in Agreements between the Investor and its Associate or Joint Venture”

The amendments address the inconsistencies between IFRS 10 and IAS 28 in accounting for the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that gains or losses arising from the sale or contribution of assets that are business as defined in IFRS 3 are fully recognized in the agreement between the investor and its associate or joint venture. However, gains or losses arising from the sale or contribution of non-business assets are recognized only to the extent of the interest held by investors other than the entity in the associate or joint venture. The IFRS Board has postponed the effective date of these amendments indefinitely, but an organization that applies these amendments ahead of time should apply them prospectively. The Company will apply these amendments when they enter into force. Currently, the Company does not expect any impact on the financial statements from the application of these amendments. The company does not expect any impact from the application.

Amendments to IAS 28 “Long-Term Investments in Associates and Joint Ventures”

The amendments clarify that an entity applies IFRS 9 to long-term investments in associates or joint ventures to which the equity method does not apply, but which are, in essence, part of the net investment in the associate or joint venture (long-term investments). This clarification is important because it implies that the model of expected credit losses in IFRS 9 is applied to such long-term investments.

The amendments also clarify that in applying IFRS 9, an entity does not take into account losses incurred by an associate or joint venture or impairment losses on net investments recognized as adjustments to net investments in an associate or joint venture arising from application of IAS 28 “Investments in Associates and Joint Ventures”.

These amendments apply retrospectively and are effective for annual periods beginning on or after 1 January 2019. Application is allowed until this date. As the Company does not have such long-

term investments in an associate or joint venture, these amendments do not affect its financial statements.

Improvements to IFRS include the following amendments:

IFRS 3 Business Combinations

The amendments clarify that if an entity obtains control of a business that is a joint venture, it shall apply the step-by-step business combination requirements, including the revaluation of interests that previously accounted for the assets and liabilities of the joint venture. cost. In this case, the acquirer must re-evaluate the entire previously existing share of participation in joint operations. The organization shall apply these amendments to business combinations that coincide with or occur after the beginning of the first annual reporting period beginning on or after January 1, 2019. Application is allowed until this date. These amendments will apply to future business combinations of the Company.

IFRS 11 Joint Ventures

A party that is a party to joint operations but does not have joint control may acquire joint control of joint operations in which the business is a business, as defined in IFRS 3. The amendments clarify that in such cases, previously shares in this joint operation are not revalued.

The organization shall apply these amendments to agreements under which it obtains joint control and the date of which coincides with or occurs after the beginning of the first annual reporting period beginning on or after January 1, 2019. Application is allowed until this date. At present, these amendments are not applicable to the Company, but they may be applied to future agreements.

IAS 12 Income Taxes

The amendments clarify that the tax consequences of dividends are more related to past transactions or events that generated distributed income than to distributions between owners. Therefore, an entity shall recognize the tax consequences of dividends in profit or loss, other comprehensive income or equity, depending on where the entity first recognized such past transactions or events. The organization shall apply those amendments for annual periods beginning on or after January 1, 2019. Application is allowed until this date. When these amendments are first applied, an entity shall apply them to the tax consequences for dividends recognized on or after the beginning of the earliest comparative period. As the Company's current practice meets the requirements of the amendments, the Company does not expect that they will have any impact on its financial statements.

IAS 23 Borrowing Costs

The amendments clarify that an entity should consider loans obtained specifically for the acquisition of a qualifying asset under joint-use loans when virtually all of the work required to prepare the asset for its intended use or sale has been completed.

An entity shall apply those amendments to borrowing costs incurred on or after the beginning of the annual reporting period in which the entity first applies those amendments. The organization shall apply those amendments for annual periods beginning on or after 1 January 2019. Application is allowed until this date. As the Company's current activities meet the requirements of the amendments, it is expected that these amendments will not affect the Company's financial statements.

3. MAIN PROVISIONS OF ACCOUNTING POLICY

The accounting policies set out below have been consistently applied to all periods presented in these financial statements. No changes were made to the accounting policy during the reporting period.

Fixed assets

Fixed assets are recognized at actual production cost less accumulated depreciation and impairment losses. Annually, the Company's management determines the deviation of the residual value of fixed assets from their fair value. In case of detection of significant deviations, their revaluation is carried out by the standing commission of the Company.

Depreciation of fixed assets is accrued on a straight-line basis using the terms established for each item of property, plant and equipment, in particular:

- houses - *20 years*
- buildings - *15 years*
- transmitting devices - *10 years*;
- machinery and equipment - *5 years*, of which:

- computers, other machines for the automatic processing of information, associated means of reading or printing information, related computer programs (other than programs for which royalties are recognized and/or programs recognized as intangible asset), other information systems, switches, routers, modules, modems, uninterruptible power supplies and means of their connection to telecommunications networks, telephones (including cellular), microphones and walkie-talkies, the cost of which exceeds UAH 6,000 - *2 years*;

- vehicles - *5 years*;
- tools, devices, inventory, furniture - *4 years*;
- other fixed assets - *12 years*.

The fixed asset is derecognized upon disposal or if no further economic benefits are expected from its continued use. Gains or losses on disposals of an asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) are included in the statement of comprehensive income in the period in which the asset is derecognized.

Residual value, useful lives and depreciation methods are analyzed at the end of each financial year and adjusted as necessary.

Intangible assets

The company uses the model of accounting for intangible assets at cost. This model assumes that an intangible asset after recognition is carried at cost less accumulated amortization and accumulated impairment losses. The useful life of each intangible asset is determined. The liquidation value of intangible assets is zero. The cost of an intangible asset with a finite useful life that is subject to amortization is allocated on a systematic basis over its useful life. Depreciation begins when the asset is usable. Depreciation ceases on the earlier date: either the date the asset is classified as held for sale or the date the asset is derecognized. The Company applies the straight-line method of amortization of intangible assets throughout their useful lives:

- the right to use natural resources (the right to use subsoil, other resources of the natural environment, geological and other information about the natural environment) - *in accordance with the title document*;

- the right to use the property (the right to use the land, except for the right of permanent use of the land in accordance with the law, the right to use the building, the right to lease premises, etc.) - *in accordance with the title document*;
- the right to commercial designations (rights to trademarks (marks for goods and services), commercial (brand) names, etc.), except for those for the acquisition of which are recognized as royalties - *in accordance with the title document*;
- the right to industrial property (right to inventions, utility models, industrial designs, plant varieties, animal breeds, layout (topography) of integrated circuits, trade secrets, including know-how, protection against unfair competition, etc.), except those whose acquisition costs are recognized as royalties - *in accordance with the title document, but no less than 5 years*;
- copyright and related rights (the right to literature, artistic, musical works, computer programs, computer programs, data compilations (databases), phonograms, videograms, programs of broadcasting organizations, etc.), except for those for the acquisition of which are recognized as royalties - *in accordance with the title document, but not less than 2 years*;
- other intangible assets (the right to conduct business, use economic and other privileges, etc.) - *in accordance with the title document*.

Expected useful lives and depreciation methods are reviewed at the end of each reporting year. If necessary, appropriate changes in valuations are made to take into account their effect in future reporting periods.

Impairment of assets

At each reporting date, the Company determines whether there is any indication that the asset may be impaired. If any such indication exists, the cost of the asset is calculated to determine the amount of the impairment loss (if any). The expected return on an asset is the higher of its fair value less costs to sell and its value in use. The amount of the expected return is determined for an individual asset, except for assets that do not generate cash inflows and are largely independent of the receipts generated by other assets or a group of assets. If the carrying amount of an asset exceeds its expected recoverable amount, the asset is deemed to be impaired and is written off to its recoverable amount. When estimating the value in use of an asset, future cash flows are discounted at the pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses are recognized in the statement of comprehensive income for the period in those cost categories that correspond to the function of the impaired asset.

Fair value

Fair value is the price that would be received to sell an asset or paid on a liability in the ordinary course of business between market participants at the measurement date. The best evidence of fair value is the price in an active market. An active market is a market in which asset and liability transactions take place with sufficient frequency and volume to provide current pricing information.

The Company applies valuation techniques that are appropriate to the circumstances and for which there is sufficient data to measure fair value, maximizing the use of relevant open input data and minimizing the use of closed input data. The purpose of applying the measurement method is to determine the price at which a normal sale of an asset or transfer of a liability would occur between market participants at the measurement date of current market conditions. The company uses the following valuation methods: market approach, cost approach and income approach. If several valuation techniques are used to measure fair value, the results are evaluated taking into account the acceptability of the range of values indicated by such results. Fair value measurement is the point in the range that best represents fair value in the circumstances. The Company selects inputs that meet

the characteristics of the asset or liability that would be taken into account by market participants in the transaction with the asset or liability. The company uses inputs from stock markets.

Fair value estimates are analyzed at the levels of the fair value hierarchy as follows:

Level 1 is an estimate of quoted prices (excluding adjustments) in active markets for identical assets and liabilities;

Level 2 are valuation techniques with all the relevant parameters available to monitor assets and liabilities, directly (i.e., prices) or indirectly (i.e., determined on the basis of prices), and

Level 3 are estimates that are not based solely on market-available data (i.e., the assessment requires significant application of non-observable parameters).

The transition from level to level of the fair value hierarchy is considered to have taken place at the end of the reporting period.

Cash and equivalents

Cash includes cash on hand and current account balances with banks. Cash equivalents include short-term investments with an original maturity of three months or less, which can be converted into certain amounts of cash and which are characterized by a small risk of changes in value.

Inventories

Inventories are valued at the lower of cost and net realizable value. Valuation of inventories at disposal is carried out using the weighted average valuation method. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the transaction. Inventories are periodically reviewed to create reserves for deterioration, aging or excess inventories.

Financial assets

The Company distinguishes the following categories of classification and valuation of financial assets:

- financial assets carried at amortized cost;
- financial assets carried at fair value through revaluation through other comprehensive income;
- financial assets carried at fair value through profit or loss.

The Company classifies and evaluates financial assets based on the business model that the Company will use to manage these assets and the characteristics of cash flows provided for in the contract. In some cases, as required by IFRS 9, use the option to measure financial assets at fair value, even if such measurement was not the result of an assessment of the business model and cash flow characteristics, but the company did not plan to use such an option in its accounting and reporting.

Diagram of the decision tree to determine the category of classification and valuation of financial assets:

The Company's financial assets carried at amortized cost include receivables from issued financial loans and receivables at accrued interest for the use of these loans, as well as receivables from repayable financial assistance for up to 12 months.

Applying discounted cash flow analysis, the Company uses one or more discount rates that meet market prevailing rates of return for financial instruments that have substantially similar terms and characteristics, including credit quality, an instrument for which the remaining interest rate is fixed, as well as the balance of the maturity and the currency in which payments will be made.

The Company applies the materiality criterion for discounting short-term debt, namely, if the difference between the nominal amount of debt and its discounted value is less than 20%, such debt is not subject to discounting.

Derecognition of financial assets

A financial asset (or, if applicable, part of a financial asset or part of a group of similar financial assets) shall be derecognised when:

- the rights to receive cash flows from the asset have expired;
- the Company transferred its rights to receive cash flows from the asset or retained the right to receive cash flows from the asset, but undertook to pay them in full without significant delay to a third party under the transfer agreement; and
- the Company has either (a) transferred substantially all the risks and rewards of the asset, or (b) has not transferred or retained substantially all the risks and benefits of the asset, but has transferred control of the asset.

After the transfer, the Company reassesses the extent to which it retains the risks and rewards of ownership of the transferred asset. If all significant risks and rewards have been retained, the asset continues to be recognized in the statement of financial position. If all significant risks and rewards

have been transferred, the asset ceases to be recognized. If all significant risks and rewards have not been retained or transferred, the Company assesses whether it has retained control of the asset. If the Company does not retain control, the asset ceases to be recognized. If the Company retains control of an asset, it continues to recognize the asset to the extent to which it continues to participate in it.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation is discharged, canceled or expires. When an existing financial liability is replaced by other liability to the same creditor on materially different terms, or the terms of an existing liability change significantly, such exchange or change is accounted for as derecognition of the original obligation and recognition of the new obligation. the difference in the corresponding carrying amount is recognized in the statement of comprehensive income/(loss).

Offsetting financial assets and liabilities

Financial assets and liabilities shall be offset, and the statement of financial position reflects the net residual amount only when the Company has a legally enforceable right to offset the recognized amounts and intends to either offset on a net basis or sell the asset and repay the liability at the same time. knitting. When accounting for a transfer of a financial asset that does not qualify for derecognition, the Company does not offset the transferred asset and the related liability.

Lease

IFRS 16 “Lease” replaces the current lease accounting requirements in IAS 17 “Lease”, IFRIC 4, “Determining whether an Agreement Contains a Lease”, SIC-15 “Operating Leases - Incentives” and SIC-27 “Assessing the substance of transactions, which have the legal form of a lease agreement”.

The company switched to IFRS 16 from January 1, 2019 using a modified retrospective approach. IFRS 16 introduces a single model for tenants to account for leases that reflect them on the lessee's balance sheet.

Under this model, the lessee recognizes an asset in the form of a right of use, which is a right to use the underlying asset, and a lease obligation, which is an obligation to make lease payments.

The Company took the opportunity to be exempted from the need to recognize short-term leases and leases of low-value facilities. A short-term lease is a lease that has a lease term of 12 months or less at the inception of the lease in accordance with the terms of the lease agreement, and this agreement does not contain an automatic extension of the lease term and the Company does not intend to extend the lease term or acquire the asset. The low value of the underlying asset is the value, which is less than UAH 30 thou.

Previously, the Company recognized lease expenses on a straight-line basis over the term of the lease and recognized assets and liabilities only to the extent that there was a difference in terms between actual lease payments and recognized expenses. The introduction of IFRS 16 did not affect the retained earnings.

Contingent liabilities

Contingent liabilities are not recognized in the financial statements, except when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and the amount of such liabilities can be measured reliably. Information about such liabilities should be

disclosed, except when the possibility of an outflow of resources embodying economic benefits is unlikely.

Reserves

The impairment requirements of IFRS 9 are complex and require judgments and assumptions, especially to assess whether there has been a significant increase in the credit risk of a financial instrument since its initial recognition; and the inclusion of forecast information in the assessment of expected credit losses. The level of judgment required to assess expected credit losses depends on the availability of detailed information. Expected credit losses are an estimated estimate weighted according to the probability of credit losses. In order to assess whether there has been a significant increase in credit risk on the financial instrument, the Company compares the default risk at the reporting date with the default risk at the time of initial recognition of the financial instrument. In general, the Company applies the general rule: financial assets should be measured as assets for which credit risk has increased significantly since initial recognition, before they become clearly impaired.

Valuation of provisions for expected credit losses requires the use of significant professional judgment. The Company regularly reviews its loans to assess whether there is a significant increase in credit risk or default. The Company assesses provisions for expected credit losses in order to maintain the amount of provisions at a level that, in the opinion of management, will be sufficient for the expected losses on financial assets and liabilities of a credit nature.

Income recognition

The Company recognizes income in the form of accrual of interest. Interest is recognized in the reporting period to which it belongs and is calculated based on the basis of their accrual and the term of use of the Company's relevant assets, i.e. the Company recognizes income according to the accrual method (according to documents confirming the loan, such as: loan agreement, payment schedule, etc.).

Net financial costs

Net financial costs include interest expenses on borrowings and loans, discounts and losses from the discount of financial instruments. Net financial costs are reflected in the statement of comprehensive income. Interest expense on borrowings is recognized as an expense when incurred.

Income tax

Income tax expense includes income tax for the current period. Current income tax is the amount of tax payable or receivable in respect of taxable profit or tax loss for the year, calculated on the basis of current or effective tax rates at the reporting date, and any adjustments to liabilities on payment of income tax for previous years.

Borrowing costs

Borrowing costs that are not part of a financial instrument and are not capitalized as part of the cost of an asset are recognized as an expense in the period.

Foreign currency transactions

Foreign currency transactions are accounted for in Ukrainian hryvnia at the official exchange rate of the NBU on the date of transactions.

In the financial statements, assets are reflected in hryvnia equivalent at the official exchange rate of the NBU as of the reporting date.

The official exchange rates of hryvnia to foreign currencies at the end of the period used by the Company in preparing these financial statements are presented as follows:

	December 31, 2019	December 31, 2018
• UAH/USD 1	23.6862	27.688264
• UAH /EUR 1	26.422	31.714138

Contingent liabilities and assets

The Company does not recognize contingent liabilities in the Statement of Financial Position (Balance Sheet). A contingent liability is disclosed unless the potential for disposal of resources embodying economic benefits is remote.

The Company does not recognize contingent assets. A summary of the contingent asset is disclosed when economic benefits are probable.

4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATED VALUES AND ASSUMPTIONS

The preparation of financial statements in compliance with IFRS requires management to determine estimates and assumptions that affect the amount of assets and liabilities, disclosure of contingent assets and liabilities as at the reporting date, and the amount of income and expenses for the reporting period. The determination of such estimates includes subjective factors and depends on past experience, current and expected economic conditions and other available information. Actual results may differ from the estimated estimates.

The most significant areas that require the use of management estimates and assumptions are as follows:

- useful life of fixed assets and intangible assets;
- estimating the fair value of property, plant and equipment based on revaluation and impairment;
- reserve for expected credit losses.

Useful life of fixed assets and intangible assets

The assessment of the useful lives of fixed assets property and intangible assets is subject to professional judgment based on the experience of using similar assets. Future economic benefits from these assets arise mainly from their current use in the provision of services. However, other factors, such as physical and moral wear and tear, often lead to changes in the size of future economic benefits that are expected to result from the use of these assets.

The Company's management periodically assesses the correctness of the final useful life of fixed assets and intangible assets. The effect of the revision of the useful life of property, plant and equipment and intangible assets is reflected in the period in which such revision took place or in future reporting periods, if applicable. Accordingly, it may affect the amount of future depreciation charges and the carrying amount of fixed assets.

Estimating the fair value of fixed assets based on revaluation and impairment

The company should periodically, as established by management, test for a possible revaluation of its fixed assets.

In addition, the Company's property, plant and equipment are analyzed for signs of impairment. When identifying signs of impairment, assets that do not generate independent cash flows are related to the corresponding cash-generating unit. The management inevitably applies subjective

judgment when assigning assets that do not generate independent cash flows to the relevant generating units, as well as when estimating the timing and amount of the relevant cash flows in calculating the value of an asset in use.

Reserve of expected credit losses

The Company discloses assets in the financial statements subject to impairment, which is accounted for in accordance with IAS 36 Impairment of Assets.

Impairment of financial instruments is reflected in accordance with IFRS 9 in the following order.

The Company recognizes a provision for expected loan losses on a financial asset measured at amortized cost or a loan liability.

Expected credit losses are a probabilistic estimate of credit losses (i.e. the present value of all outstanding amounts of cash for the entire expected life of the financial instrument. Outstanding amounts of cash are the difference between the cash flows to be paid to the Company under the agreement and the cash. As the expected credit losses take into account the amount and timeliness of payments, the credit loss occurs even when the Company expects to receive payment in full, but later than the contractual period of its payment.

The Company assesses at each reporting date a provision for losses on a financial instrument in the amount equal to the expected credit loss for the entire life of the financial instrument, if the credit risk on such a financial instrument has increased significantly since initial recognition. If as of the reporting date the credit risk on a financial instrument has not increased significantly since initial recognition, the Company estimates the provision for losses on such financial instrument at the amount equal to the 12-month expected credit loss.

If in the previous reporting period the Company has estimated the provision for losses on the financial instrument in the amount equal to the expected credit losses for the entire term of the financial instrument, but as of the current reporting date found that the criteria for such recognition are no longer met, the Company estimates the provision for losses in the amount equal to the 12-month expected credit losses as of the current reporting date.

The Company recognizes the amount of expected credit losses (or restores usefulness) that is necessary to adjust the provision for losses as at the reporting date, to the amount to be recognized as profit or loss from impairment of profit or loss.

As at each reporting date, the Company assesses whether the credit risk on the financial instrument has increased significantly since initial recognition. In performing such an assessment, the Company instead of changing the amount of expected credit losses uses the change in the risk of default during the expected life of the financial instrument.

5. FIRST APPLICATION OF INTERNATIONAL FINANCIAL REPORTING STANDARDS

The financial statements for the year ended December 31, 2018 were first prepared in accordance with International Financial Reporting Standards (IFRS). Accordingly, as stated in the accounting policy, the Company has prepared financial statements in accordance with the requirements of IFRS, which are applicable to the reporting periods beginning on or after January 1, 2018.

6. INTANGIBLE ASSETS

The movement of intangible assets for the year ended December 31, 2019 was as follows:

Software	Total
-----------------	--------------

LLC FINANCIAL COMPANY "GOFINGO"
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019
(in thousands of Ukrainian hryvnias)

Initial value		
as of 01.01.2019	<u>2</u>	<u>2</u>
received	2805	2805
disposed of	<u>1</u>	<u>1</u>
as of 31.12.2019	<u>2806</u>	<u>2806</u>
Depreciation on 01.01.2019	<u>0</u>	<u>0</u>
accrued	192	192
on 31.12.2019	<u>192</u>	<u>192</u>
Book value:		
on 01.01.2019	<u>2</u>	<u>2</u>
on 31.12.2019	<u>2614</u>	<u>2614</u>

The Company did not revalue its intangible assets available.

7. FIXED ASSETS

The movement of fixed assets for the year that ended on December 31, 2019 was as follows:

	Office appliances and equipment	Vehicles	Other non- current tangible assets Underlying lease asset	Total
Initial value				
as of 01.01.2019	<u>67</u>	<u>0</u>	<u>0</u>	<u>67</u>
received	229	0	1316	1545
disposed of	<u>5</u>	<u>0</u>	<u>0</u>	<u>6</u>
as of 31.12.2019	<u>289</u>	<u>0</u>	<u>1316</u>	<u>1605</u>
Depreciation				
as of 01.01.2019	<u>4</u>	<u>0</u>	<u>0</u>	<u>4</u>
received	71	0	403	774
disposed of	<u>3</u>	<u>0</u>	<u>0</u>	<u>3</u>
as of 31.12.2019	<u>72</u>	<u>0</u>	<u>403</u>	<u>475</u>
Book value:				
as of 01.01.2019	<u>63</u>	<u>0</u>	<u>0</u>	<u>63</u>
as of 31.12.2019	<u>217</u>	<u>0</u>	<u>913</u>	<u>1130</u>

The Company did not revalue property, plant and equipment at the reporting date. After examining the prices of similar fixed assets (for which such information is available), the Company's management has concluded that the fair value of property, plant and equipment does not differ materially from their carrying amount.

At the reporting date, property, plant and equipment were not pledged as collateral and were not restricted in the Company's disposal and use.

The Company has no fixed assets, whose initial cost, the residual value of which is zero and which continue to be used as of December 31, 2019.

As of December 31, 2019, there no fixed assets that are temporarily not used.

8. LONG-TERM FINANCIAL INVESTMENTS

The Company does not have long-term financial investments.

9. CURRENT ACCOUNTS RECEIVABLE

Current receivables at the end of the reporting period include receivables for goods, works, services, loans to individuals and legal entities and accrued interest for the use of these loans, which were not paid at the reporting date.

The Company recognizes a provision for expected loan losses on a financial asset measured at amortized cost or a loan liability.

The net carrying amount of receivables is considered to be a significant approximation of fair value. The accounts receivable are expected to be repaid within 1 month from the reporting date. Given this, the value of money over time is not significant.

The Company's management believes that the receivables will be repaid by receiving cash.

The current accounts receivable as of December 31, 2019 are:

9.1. ACCOUNTS RECEIVABLE UNDER ADVANCES ISSUED (LINE 1130):

Indicators	01.01.2019	31.12.2019
Accounts receivables from resident suppliers for advances paid for future supplies of goods, works and services (line 1130)	2412	547
Accounts receivable with calculations from the budget with single social security tax and military duty (line 1135)	0	23
Total	2412	570

9.2. ACCOUNTS RECEIVABLE IN ACCRUED INCOME CALCULATIONS (LINE 1140):

Indicators	01.01.2019	31.12.2019
Balance of accrued but unpaid interest on loans by legal entities	327	0
Balance of accrued but unpaid interest on loans by individuals	5527	49044
Recognized provision for expected credit losses unpaid interest on loans by individuals	0	(39127)
Total	5854	9917

9.3. OTHER CURRENT ACCOUNTS RECEIVABLE (LINE 1155):

Indicators	01.01.2019	31.12.2019
Balance of debt on loans issued and outstanding by individuals	12720	116655
Balance of debt on the loan to a legal entity for up to 12 months	34780	
The balance of debt on repayable financial assistance to a legal entity for up to 12 months	0	589
Recognized provision for expected credit losses unpaid interest on loans by individuals	0	(66643)
Total	47500	50601

10. CURRENT FINANCIAL INVESTMENTS (LINE 1160):

As of 31.12.2019, there are no current financial investments.

11. CASH AND EQUIVALENTS (LINE 1165, 1167):

As of December 31, 2019, cash and equivalents include cash on current accounts of banks:

Indicators	01.01.2019	31.12.2019
Ukrainian hryvnias on current accounts	60	4168
Cash	0	0
Balances on the account in the payment system	0	48
Total	60	4216

Access to money is free, there are no restrictions.

12. AUTHORIZED CAPITAL (LINE 1400):

As of December 31, 2019, the declared authorized capital of the Company amounted to UAH 5,200,000.

According to the Charter, the member of the Company is a legal entity - a resident of Lithuania: GO FINANCIAL TECHNOLOGIES CJSC (address: VILNIUS CITY MUNICIPALITY, TERRITORY OF VILNIUS CITY MUNICIPALITY, LITHUANIA). In 2019 name MV INVESTMENTS CJSC was changed to GO FINANCIAL TECHNOLOGIES CJSC.

As of January 1, 2019, the amount of paid-in authorized capital was UAH 3,000, the amount of unpaid capital was UAH 2,200,000.

During the year, the participant of the Company by the Decision No. 24/01-19 as of 24.01.2019 the amount of the authorized capital was increased to UAH 10000 thousand (Ten million). But by the Decision No. 11/12-19 of 11.12.2019, the member of the Company reduced the authorized capital to UAH 5,200,000 (Five million two hundred thousand).

The founder paid contributions to the authorized capital by transferring funds in foreign currency (euro) to the Company's current currency accounts opened as follows:

Table 1

Date of payment according to the bank	Bank	Amount, EUR	Official NBU rate as of the date of payment	Amount, UAH	Credited to the authorized capital,	Credited to the additional capital,
---------------------------------------	------	-------------	---	-------------	-------------------------------------	-------------------------------------

LLC FINANCIAL COMPANY "GOFINGO"
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019
(in thousands of Ukrainian hryvnias)

statement					UAH	UAH
04.05.2018	ALFA-BANK JSC	100000,00	31,4088	3140880,00	3000000,00	140880,00
17.01.2019	PRIVATBANK PJSC	55000,00	31,898883	1754438,57	1754438,57	0,00
22.01.2019	PRIVATBANK PJSC	14953,00	31,755196	474835,45	445561,43	29274,02
TOTAL	*	169953,00	*	5370154,02	5200000,00	170154,02

That is, the actually paid-up authorized capital is UAH 5,200,000.00 (Five million two hundred thousand).

To establish the registered authorized capital, the founders and members did not involve promissory notes, insurance reserves, as well as funds received on credit, loan and pledge, budget funds and intangible assets.

The authorized capital as of 31.12.2019 is UAH 5,200 thou.

13. ADDITIONAL CAPITAL (LINE 1410):

As of December 31, 2019, the Company takes into account the additional capital that arose as a result of overpaid amounts by the Company's member "GO FINANCIAL TECHNOLOGIES" CJSC ("MV INVESTMENT" CJSC) before the formation of the authorized capital of the Company. As of December 31, 2019, the amount of additional capital of the Company is UAH 170 thousand (Table 1).

The decision of the member No. 07/05-18 as of 07.05.2018 on the transfer of the overpaid amount to the additional capital in the amount of UAH 141 thousand. (Table 1).

The decision of the member No. 22/01-19 as of 22.01.2019 on the transfer of the overpaid amount to the additional capital in the amount of UAH 29 thousand. (Table 1).

14. RETAINED EARNINGS (LINE 1420):

As of January 1, 2019, retained earnings amounted to UAH 14 thou.

As of December 31, 2019, retained earnings amounted to UAH 2581 thou.

15. OTHER LONG-TERM LIABILITIES (LINE 1515):

The Company recognizes new assets and liabilities under operating lease agreements on the lease date and measures the lease liability at the present value of the lease payments not paid at that date at the effective rate.

The discount value of other long-term liabilities under the lease agreement for office space as of 31.12.2019 is UAH 968 thou.

16. CURRENT LIABILITIES

As of December 31, 2019, current liabilities include:

Indicators	01.01.2019	31.12.2019
Current accounts payable for goods, works, services (line 1615)	60	5958
Current accounts payable (according to line 1620)	5	565

Other current liabilities as of December 31, 2019 are represented by the following calculations (line 1690):

Indicators	01.01.2019	31.12.2019
Current accounts payable on short-term loans (up to 12 months) received from a financial company	51700	15786
Current accounts payable on interest on short-term loans (up to 12 months) received from a financial company	524	13186
Current accounts payable on loan of non-resident (Lithuania)	0	24831
Current accounts payable under repayable financial assistance (up to 12 months)	530	0
Total	52754	53803

17. PROVISION OF LABOUR COSTS (LINE 1660):

Provision of labour costs include obligations to pay leave to employees that the Company will pay in the future when granting leave, or in the form of compensation in case of dismissal of employees who have unused leave.

Indicators	01.01.2019	31.12.2019
Provision of payment for unused leave	58	293
Total	58	293

18. NET INCOME (REVENUE) FROM SALES (LINE 2000):

For the year ended December 31, 2019, income from the sale of services includes:

Indicators	2019	2018
Income on accrued interest for the use of financial loans	131682	8914
Total	131682	8914

19. OTHER OPERATING INCOME:

For the year ended December 31, 2019, other operating income is determined in the amount of:

Indicators	2019	2018
Received fines, penalties	68895	1 455
Currency revaluation income	1679	2
Cash in the amount of EUR 4,162.68 with the purpose of payment "Replenishment of authorized capital", which is the income of the Company	0	149
Total	70574	1 606

20. ADMINISTRATIVE EXPENSES:

For the year ended December 31, 2018, administrative expenses include:

Indicators	2019	2018
Remuneration	4708	761
Deductions for SSC	859	140

For the year ended December 31, 2019, the financial result and net financial result were formed as follows:

Indicators	2019	2018
Financial result before taxes (Profit) (line 2290)	2823	17
Income tax expense (line 2300)	(508)	(3)
Net financial result (Profit) (line 2350)	2315	14

26. CASH FLOW (BY DIRECT METHOD):

The statement of cash flows for 2019 is prepared in accordance with the requirements of IAS 7 by the direct method, which discloses information about the main classes of gross cash inflows or gross cash disbursements on a net basis. The report reflects cash flows from operating, investing and financing activities.

Operating activity is the profit from ordinary activities. Operating activities are the main activity of the Company for income. The amount of cash flows from operating activities is a key indicator used to assess an enterprise's ability to generate sufficient cash flows to repay loans, maintain operating capacity, pay dividends and make new investments without external sources of financing.

Investment activity is the receipt or use of cash that has occurred as a result of the purchase or sale of non-current assets, including those classified as long-term financial investments; assets classified as current financial investments and other investments that are not considered as cash equivalents. Transactions classified as investment activities, but not requiring the use of cash and cash equivalents (non-cash transactions) are not reflected in the Statement of Cash Flows.

Financial activity is the receipt or use of equity and debt capital. The inflow of funds as a result of financial activities occurs due to the issue of own shares, loans, and disposal - when repaying loans, paying dividends on the redemption of treasury shares.

For the year ended December 31, 2019, the Company's cash flow was as follows:

Correction of errors for previous year

The Company corrected insignificant mistakes inadvertently made in 2018 in a promising way. The balance of retained earnings at the beginning of the reporting year was adjusted and the amount of retained earnings was increased by UAH 252 thousand. including::

- UAH 8 thousand - increased by the amount of unaccounted income from the revaluation of foreign currency on the foreign currency account for overpaid funds from the participant in 2018;
- UAH 3 thousand - increased by the amount of overcharged SSC for expenses in 2018;
- UAH 530 thousand - increased by the amount of non-refundable financial assistance not included in income in 2018;
- UAH (149) thousand - reduced by the amount of overpaid funds from the participant and erroneously included in the income in 2018, the decision of the participant No. 005-18 from 07.05.2018;
- UAH (33) thousand - reduced by the amount of excess accrued income in 2018 on the loan;
- UAH (50) thousand - reduced by the amount of unaccounted costs provided by service providers for 2018;
- UAH (57) thousand - reduced by the amount of uncalculated income tax for 2018 due to the correction of errors.

Equity as of 31.12.2019 amounts to UAH 7951 thou. and meets the requirements of paragraph 1 of section XI "Regulations on the State Register of Financial Institutions", approved by the State Commission for Regulation of Financial Services Markets of Ukraine dated 28.08.2003 No. 41 (as amended by the National Commission for State Regulation of Financial Services Markets dd. 28.11.2013 No. 4368).

28. DISCLOSURE OF INFORMATION REGARDING THE USE OF FAIR VALUE

The Company performs only continuous estimates of the fair value of assets and liabilities, i.e. those estimates required by IFRS 9 and IFRS 13 in the statement of financial position at the end of the reporting period.

Classes of assets and liabilities measured at fair value	Evaluation methods	Valuation method (market, discounted cash flow, cost)	Outputs
Cash and equivalents	Initial and subsequent measurement of cash and equivalents is carried out at fair value, which is equal to their nominal value.	Market	Official NBU rates
Accounts receivable	Initial and subsequent measurement of receivables is carried out at fair value, which is equal to the cost of repayment, i.e. the amount of expected contractual cash flows at the measurement date	Discounted cash flow	Contract terms, probability of repayment, expected cash inflows
Equity instruments	The initial measurement of equity instruments is at their fair value, which is usually equal to the transaction price in which the asset was received. Subsequent measurement of equity instruments is carried at fair value at the measurement date	Market, cost	Official exchange rates of trading organizers on the valuation date, in the absence of a specified exchange rate on the valuation date, the last book value, closing prices of the exchange trading day are used
Current liabilities	Initial and subsequent measurement of current liabilities is carried out at cost	Cost	Contractual terms, probability of repayment, expected cash outflows

There were no changes in the valuation of debt securities and redistribution between fair value hierarchies.

The Company's management believes that the disclosures regarding the application of fair value are sufficient, and does not consider that any significant information about the application of fair value that may be useful to users of financial statements remains outside the financial statements.

29. RELATED PARTY TRANSACTIONS

In accordance with IAS 24 Related Party Disclosures, parties are considered related if one party has the ability to control the other party or exercise significant influence over the other party's financial or operating decisions. When considering each possible related party, special attention is paid to the content of the relationship, not just their legal form.

Related parties may enter into agreements that would not be entered into between unrelated parties. The prices and terms of such agreements may differ from the prices and terms of agreements between unrelated parties.

The direct owner of the Company is a legal entity - a resident of Lithuania: GO FINANCIAL TECHNOLOGIES CJSC (address: VILNIUS CITY MUNICIPALITY, TERRITORY OF VILNIUS CITY MUNICIPALITY, LITHUANIA), which holds 100% of Company's authorized capital – UAH 5,200,000 of which UAH 3,000,000 were paid as of 01.01.2019.

32. FINANCIAL RISK FACTORS

Financial risk factors

In the course of its activities, the Company is subject to various financial risks. The Company pays special attention to the unpredictability of financial markets and aims to minimize their negative consequences for the results of the Company's activities. In particular, to limit the market risk associated with adverse changes in the market value of financial instruments due to price fluctuations in financial market sensitive segments, the Company closely analyzes financial assets before their acquisition and monitors further information taking into account existing regulatory restrictions on investment areas for the financial company, current and forecast prices and interest rates, the level of liquidity, diversification of the investment portfolio.

The Company is exposed to the risk of not receiving funds from the repayment of receivables formed with counterparties, in particular individuals who have been issued short-term loans.

The key for the Company as a financial company is operational risk, which includes risks associated with personnel, imperfect operation of information systems and means of communication, as well as legal risk. To minimize these risks, the following measures are taken:

- staff training, advanced training, end-to-end automation of business processes;
- use of modern equipment and software, regular modification of the functionality of the electronic trading system;
- use of electronic document management and reliable protection of information;
